Please send updates to info@sacramentocovered.org

BACKGROUND:

WHAT IS COVID-19 (NOVEL CORONAVIRUS)?

The COVID-19 virus is a respiratory illness that can spread from person to person.

WHAT ARE THE MOST COMMON SYMPTOMS?

Fever

Cough

Shortness of breath

May lead to more severe symptoms and conditions like pneumonia in the lungs.

You can also have no symptoms and still carry and transmit the virus to others.

HOW IS IT TRANSMITTED?

Through respiratory droplets when an infected person coughs or sneezes.

Between people in close contact with one another.

Touching a surface or object that has the virus on it and then touching your own mouth, nose, or eyes.

Fecal-oral from infected stool, like touching fecal contamination of items, food and water, and then your own mouth.

WHAT CAN I DO TO PROTECT MYSELF AND OTHERS?

Wash your hands with soap and water for 20 seconds.

Use an alcohol-based hand sanitizer when soap and water are not available.

Cover your cough or sneeze with a tissue and throw used tissue away. Wash your hands immediately afterwards.

Avoid touching your eyes, nose and mouth.

Avoid crowds and contact with people. Keep a 6 ft. distance from others.

Disinfect frequently touched surfaces and objects.

Stay home and limit travel to only essential needs and activities like grocery shopping, banking, picking up medicine, and health appointments.

Wear a mask or cloth mask around others and in public.

GUIDELINES FOR MASKS

Wear a cloth mask in public settings. Cloth masks should be routinely washed daily or after each use. Be careful to not touch your eyes, nose and mouth when removing your mask. Surgical and N95 masks are crucial for health workers and in short supply. Surgical and N95 masks should be saved for caregivers and medical/emergency personnel. Go to <https://bit.ly/cdc-mask> for more information.

WHAT DO I DO IF I'M SICK?

Stay home and call your doctor or your health plan's 24-hr advice nurse.

If you live with others, isolate yourself in a separate room or area.

Wear a mask when around others and before entering buildings or medical facilities.

Monitor your symptoms at home and follow instructions from your doctor.

Before visiting your doctor or the hospital, call ahead and tell them of your symptoms. Wear a mask.

Continue to practice social distancing, washing your hands, cleaning surfaces, and covering your cough.

Call **911** if your symptoms worsen and you need emergency medical attention. Let the operator know that have or may have COVID-19.

If you don't know who your doctor is or need help finding one, call **(916) 414-8333** for free assistance from a Sacramento Covered health navigator.
