COVID-19
The COVID-19 virus is a respiratory illness that can spread from person to person.

SYMPTOMS
Cough
Shortness Of Breath
Fever
May lead to more severe symptoms and conditions like pneumonia in the lungs.
You can also have no symptoms and still carry and transmit the virus to others.

TRANSMISSION/CONTAGION
Between people in close contact
Air transmission when an infected person coughs/sneezes
Touching contaminated objects or surfaces, then own mouth, nose or eyes
Fecal-oral: touching infected stool and then own mouth, nose or eyes

PREVENTION
Wash your hands with soap and water. Use alcohol-based hand sanitizer when soap and water are not available.
Wear a mask when around others and in public and community settings.
Cover your cough/sneeze with a tissue or flexed elbow. Throw tissue away and wash hands immediately.
Disinfect frequently touched objects and surfaces

PREVENTION
Avoid crowds. Keep a 6 ft. distance between yourself and others.
Stay home. Remain in tents/sleeping areas. Keep tents 12 ft. apart.
Don’t share clothing, bedding, cooking supplies, utensils, food, drinks, or tobacco products.

IF YOU ARE SICK
Call your doctor and stay home/in your tent and sleeping area.
If you live with others, isolate yourself in a separate room or tent.
Monitor your symptoms, drink plenty of water, and follow your doctor’s instructions.
Before visiting your doctor or the hospital, call ahead and tell them of your symptoms. Wear a mask.
Call 911 if your symptoms worsen and you need emergency medical attention. Let the operator know that have or may have COVID-19.
